lpasic@brom leyeastcs.org	<p>"Hands-On Math Projects With Real Life Applications"</p> <p>PTO Notes: Christi motions to approve, Lndsey seconds to approve. All in favor.</p>	<p>https://www.amazon.com/Hands-Projects-Real-Life-Applications-Grades/dp/0471021388/ref=1_a_fncpf_320%26pf_rd_p%3D1629534156&pf_rd_p%3D1629534156&pf_rd_t%3D1%26pf_rd_i%3D1629534156&pf_rd_m%3D1629534156&pf_rd_o%3D1629534156</p>	<p>This year is the first year I have most students who are either at or above grade level. I would like to take their math learning to the next level instead of forcing them to learn something they already know (or understand quickly). That's boring to them and it has no additional value, other than reviewing the material. I'd like to start doing in-classroom math projects where they design projects based around their interest. They can work on this when their classwork is complete. I have high achieving students this year and I know they will do an amazing job at these projects. I am currently using Barb Frazier's copy, but her's is for 6-12 grade so I'm having to tone these projects down quite a bit. Thank you for your time and consideration of this product.</p>	<p>\$28.20</p> <p>Approved</p>	<p>LaShara Noel Pasic</p>

The Pre-Referral Intervention Manual was used in the past on a regular basis. (The teacher that owned the PRIM took it with her when she left)</p>	<p>With shipping and tax - \$228.92</p>	<p>Renee Atkins</p>
